Buckeye Application opens Indiana location

MOORESVILLE, Indiana, February 17, 2015 – An Ohio-based Dealer of Apache-brand self-propelled sprayers has opened a sales, service and parts center in northeast Indiana.

The approximately 10,000-square-foot Buckeye Application Sales and Service facility is six miles west of Huntington along U.S. 24. The physical address is 8254 W. County Road 300N, Andrews. Business hours are 8 a.m. to 5 p.m. Mondays through Fridays, with extended and Saturday hours during spray season. Darrell Smith manages the facility.

The new location meets a growing need, said Mike Maassel, Buckeye Application co-owner.

“Our business is growing in Indiana,” Maassel said. “We’re excited about this new location and believe it will make us an even better resource for Indiana farmers and agribusinesses.”

Buckeye Application is based in Continental, Ohio, and has been an Apache Dealer for seven years. In addition to Apache Sprayers, Buckeye sells and services fertilizer spreaders, loaders and agricultural input handling equipment, and carries the largest selection of used flotation equipment parts east of the Mississippi River. Buckeye’s Apache dealership territory includes parts of north and northeast Indiana, including the cities of Elkhart, Fort Wayne and South Bend. Buckeye also serves northwest, west and southern Ohio.

For more information about the new Buckeye location call 260-786-3442, or visit Buckeye’s website: www.buckeyeapplication.com.

Apaches are manufactured in Mooresville, Ind., by Equipment Technologies. The mechanical drive sprayers are marketed through a vast dealership network in the United States, Canada, Australia and Ukraine. Apaches come in three models, ranging in size from the 750-gallon AS720 to the 1,200-gallon AS1220.

All 2015 model Apaches come with an industry-best five-year warranty.
