Egger Truck & Machine joins Apache Dealer network

MOORESVILLE, Indiana, USA, October 2, 2014 – Equipment Technologies has added its first Apache Sprayers Dealer in Ontario, Canada.

Egger Truck & Machine, 85 Robinson Road, Dunnville, serves an area stretching from Brantford to Niagara Falls, including Hamilton and St. Catharines, in southeast Ontario. Egger offers sales, service and parts for farm tractors and machinery, grain wagons, auger carts, compact and sub-compact tractors, diesel trucks, lawn mowers, power equipment and GPS and autosteer systems.

“We decided to become an Apache Dealer to fulfill a need,” said Roger Egger, president and owner and Egger Truck & Machine. “We’re located in a part of Ontario with traditionally small farm acreage, but that has changed. It’s not uncommon to now see farms with 1,500-2,000 acres.”

Egger was impressed with Apache Sprayers as his company looked for a self-propelled sprayer brand to add to its product lineup. “We really love Equipment Technologies and the Apache,” he said. “We’ve worked in the past with tractor companies and sometimes people complain about them. But when we went with Apache not a bad word was said. People at Equipment Technologies care, and we’re looking forward to growing with them.”

A diesel mechanic by trade, Roger Egger founded Egger Truck & Machine in 1987 with his wife Betty. The company’s motto, “We deliver more than we promise,” comes from lessons Egger learned from his father Richard.

“He always said good service and a fair price was the way to do business,” Egger said.

Egger Truck & Machine is open 7 a.m. to 5 p.m. Mondays to Fridays and 8 a.m. to noon Saturdays. For more information contact the company at 800-429-8819 or visit www.eggertruck.com.

Equipment Technologies is the largest independently-owned manufacturer of self-propelled sprayers in North America. Operating from its 168,000-square-foot headquarters in Mooresville, Ind., USA, the company distributes its sprayers throughout Canada, the United States, Ukraine and Australia through a network of independent Dealers.
