

WHY RUN WITH APACHE?

AS1020 SPRAYER

THE APACHE MODEL AS1020 SPRAYER

Comfort. Speed. Accuracy. Efficiency. That's exactly what you get from every Apache sprayer. They're built to handle the everyday (and not-so-everyday) field conditions with a higher standard of comfort and performance. And, because all we do is build sprayers, we're 100% focused on building the best sprayers in the industry, backed by the best warranty in the industry.

The Apache AS1020 sprayer is the best-selling model in the lineup. It features a 1,000-gallon tank and mechanical drive, it's simple to operate and nimble enough to work in field conditions competitive sprayers can't. It's 11,300 pounds lighter than a Deere R4038, reducing yield-robbing compaction. When the days are long, its 35 mph road speed will get you to the next field (or home) faster.

Limited supply of AS1020 sprayers with Tier 3 engines available at significant discount versus Tier 4 engine models. Ask your Apache dealer for details.

UNIQUE FEATURES OF THE AS1020

Tank Capacity

1,000 gallons

Transmission

ZF Power Shift, 6-speed with lock-up torque converter

Engine

Tier 3 173 hp
Cummins engine

Top Road Speed

35 MPH

Weight

19,500 lbs (approx. dry weight)

Crop Clearance

42" with JCB planetary final drives
50" clearance with 18" drop box all-gear final drives (optional)

THE APACHE MODEL AS1020 SPRAYER

Specifications

Tank Capacity	1,000 gallons
Transmission	ZF Power Shift, 6-speed with lock-up torque converter
Engine	Tier 3 173 hp Cummins engine
Top Road Speed	35 MPH
Weight	19,500 lb (approximate dry weight)
Crop Clearance	42" with JCB planetary final drives 50" with 18" drop box all-gear final drives (optional)
Fuel Capacity	100 gallons
Suspension	Patented independent hydraulic
Brakes	Fully-enclosed, self-adjusting, internal wet disc brakes
Front Tires	380/80R38 (narrow and semi-float options available)
Rear Tires	380/90R46 (narrow, semi-float and full-float options available)
Transport Width and Height	144" maximum
Overall Length	290" maximum
Booms	ET custom boom straight 90' or 100' or 60'/90' ET custom boom straight 120' or 132'
Product Pump	HYPRO® hydraulically-driven centrifugal product pump
Rinse Tank	100 gallons
Cab	ET custom pressurized state-of-the-art interior and console.
