A Message to our Valued Customers

As we monitor the developments of the coronavirus (COVID-19) pandemic, the health and safety of our employees and customers remain our top priority. Equipment Technologies (ET) is considered a critical infrastructure manufacturer providing equipment, parts, and services to the Food and Agriculture industry, and we will remain open to serve you.

ET has taken proactive steps to ensure safety standards at our Mooresville, IN manufacturing plant and parts warehouse, as we continue to provide you with the equipment, parts, and services you need during this time.

As an organization, we have activated our business continuity plan, which includes monitoring the guidelines set forth by the FDA, CDC, and state and local authorities. ET Ag Centers and dealerships remain open, and personnel is following the guidelines to ensure the cleanliness of each store along with offering enhanced services such as call-ahead parts orders and curbside pickup. We also remain focused on the continued effectiveness of our American supply chain to ensure our stores are stocked with the essential parts you need.

Our thoughts go out to the first responders, health care professionals, and all who have been affected during this unprecedented event. We appreciate the farmers, ranchers, truckers, grocery store workers, and all in the agricultural industry who work tirelessly to feed the world.

We are here for you. Please don't hesitate to contact us.

Thank you,

Matt Hays, CEO
Equipment Technologies
